

**IRELAND'S  
LEADING SECURE  
IT RECYCLING  
COMPANY**

## Ireland's leading secure IT recycling company

AMI provide a market leading, secure and cost-effective service in the secure disposal and reuse of IT equipment, data destruction and WEEE recycling.

We are the only company in Ireland to be certified to the global ADISA IT Disposal Industry Standard, and one of only four globally that hold a Distinction with Honours Certificate.

We are the most secure IT equipment disposal service provider in Ireland.

## SERVICES

AMI is the most accredited IT disposal service provider in Ireland, offering a nationwide collection service across all 32 counties.

We are passionate about security and take the utmost precautions with your equipment at all stages of our process.

### SECURE

We have designed a disposal solution with security at its heart. All stages, from collection, through processing, to staff and facilities are fully secure.

### COMPLIANT

We are the most certified IT disposal service provider in Ireland. We hold 11 international ISO and quality standards, ensuring you fulfil your obligations under the GDPR and environmental regulations.

### COST-EFFECTIVE

We provide our clients with a cost-efficient solution for IT asset disposal and recycling. We utilise our extensive network of resellers to maximise the value of old IT equipment to reduce disposal costs and return revenue to our customers.

## SECURE COLLECTION

### 1. SECURE LOGISTICS

The initial step in our secure IT recycling solution is an ADISA approved process that keeps your IT equipment secure during transport from your site to ours.

- Unique job reference numbers are allocated to each IT item prior to collection
- Equipment fully tracked through the transport, delivery and data destruction process
- No minimum quantities, collections available throughout Ireland
- We collect loose, caged or palletised equipment and provide storage containers
- Fully flexible service

### 2. COLLECTION CREW

- Our IT disposal experts are uniformed, fully trained, security vetted AMI personnel
- IT assets quickly packed with minimal disruption by expert collection crew
- Same day delivery to secure AMI facility

### 3. OUR FLEET

- Wide range of vehicles can accommodate various collection sizes
- Transported in unmarked vehicles fitted with the latest GPS tracking
- Vehicles are always locked and attended

Collected from 4,150 sites

“

*We work with very security conscious customers. It is fair to say that AMI has helped us consolidate our relationships with these organisations”*

ICT Sales Manager, Managed Services

## SECURE DESTRUCTION

Passionate about security

Last year we erased over 125,000 devices

blancco

CERTIFIED DATA ERASURE

We provide a Blancco service for laptops, desktops, servers and other data-bearing devices. Blancco is the leading provider of data erasure software. Their solutions have been tested, certified, approved and recommended by 18 governing bodies and leading organisations around the world.

## EQUIPMENT RESALE & REVENUE RETURN

AMI provide our clients with a cost-effective solution to their IT equipment disposal needs. Our expert refurbishment process enables us to maximise the quantity of IT equipment that is sold, rather than recycled, thus providing a revenue return for our clients.

We endeavour to get the greatest return for our clients by using various channels, including reselling to education, B2B, trade, and directly to end users.

The revenue generated through the resale of equipment covers the cost of disposal for 9 out of 10 corporate customers, meaning they don't pay an invoice for IT asset disposal.

**“**

*“We rely on AMI for secure and certified data destruction, which is key to unlocking the residual value in used equipment for our clients”*

Head of Sales, IT Leasing

**“**

*“AMI has a wealth of experience in selling a wide range of ICT equipment, ensuring that we and our clients realise the highest possible return from our disposal agreement”*

ICT Sales Manager,  
Managed Services

## WEEE RECYCLING

AMI is committed to continuously working to reduce environmental impact. In accordance with the Waste Electrical and Electronic Equipment (WEEE) Directive we recycle and reuse electrical and electronic equipment from IT assets that are unsuitable for refurbishment and resale.

- Recyclable equipment has the same level of security and traceability as refurbished equipment
- All recycled equipment meets the relevant local and EU regulations on the processing of electrical waste
- Complete trail of the waste material to its final location, assuring clients all waste we process remains within the EU
- Certificate of Destruction provided
- Our recycling partners are chosen based on their best in class recycling and recovery rates. We ensure they are fully audited and licenced to the correct ISO standards

# ADDITIONAL SERVICES

## DEPLOYMENT SUPPORT

AMI offer a wide range of deployment support services to suit the needs of your organisation.

- IT audits and asset register creation
- Secure IT equipment storage
- Engineering resources for client installation projects
- Bespoke asset tagging
- Deployment, configuration and imaging
- Installation projects
- Removal of assets from desk

## RELOCATION SERVICES

AMI provide a fully-managed secure IT equipment relocation service that looks after packing up, securely transporting and installing your IT equipment in your new office, with minimal disruption to your business:

- Security vetted IT engineers
- All devices asset tagged and registered so that each item is fully trackable
- Secure logistics – unmarked, GPS tracked vehicles
- Installation, ensuring all IT equipment is ready for use

We are a well tried and tested provider of secure IT equipment relocation services in Ireland.

Service levels offered, but not restricted to:

- Pack and transport IT equipment
- De-rack and Re-rack
- De-commission and re-commission

<b>1</b> DiskShred is a wholly owned brand of AMI	<b>2</b> Purpose built shredding vehicles	<b>3</b> Most reliable and cost-effective solution in Europe for on-site data destruction	<b>4</b> Most accredited pan-European on-site shredding organisation
<b>5</b> 82% of business comes from repeats and referrals	<b>6</b> Shred 500 to 700 hard drives per hour, the best in the market	<b>DISKSHRED®</b>	

## ON-SITE SHREDDING

We tailor our approach around you and your business needs. Our ultra-secure shred process can be broken down into the following 8 stages:

### STAGE 1

You tell us what you want to destroy

### STAGE 2

Our mobile shredder arrives at your premises on the agreed date and time

### STAGE 3

Clear chain of custody - our security vetted, trained employees transfer your hard drives or media into the lorry shredder

### STAGE 4

Media is never left unattended

### STAGE 5

Media is shredded into fragments as small as 6mm if necessary

### STAGE 6

We provide you with an Interim Certificate of Destruction and signed Waste Transfer Note whilst on-site to fulfill your regulatory obligations

### STAGE 7

We carefully dispose of debris according to government regulations

### STAGE 8

On return to base we will issue you with a final report containing your Certificate of Destruction. You can also receive an asset register of each asset destroyed, and searchable CCTV evidence of the process

“

*“Professional, competent and also a great company. I would recommend AMI to anyone who requires this type of service”*

IT Manager, Service Provider

## COMPLIANCE

**Compliance: exciting and absorbing? Maybe not to everyone, but at AMI it's an area we know inside out and back to front.**

It's another reason why people like working with us and our rigorous attitude to regulation and compliance is designed to protect your organisation from the pitfalls and perils of data security. We are fully compliant with the below legislation and are thoroughly audited having achieved the following accreditations:

**ADISA - Distinction with Hons**

**British Security Industry Association (BSIA)**

**DIPCOG - Defence Infosec Product Co-operation Group**

Centre for the Protection of National Infrastructure

**CPNI - Centre for the Protection of National Infrastructure**

**EN 15713:2009 - Secure Destruction of Confidential Material**

**Irish Security Industry Association (ISIA)**

**BS 7858 - Staff Screening Standard**

**Blancco - Gold Partner**

### International Standard Organisation

This is an international standards setting body composed of representatives from national standards organisations. ISO is an independent, non-governmental international organization.
