

Premium IT Asset Lifecycle Solutions

About Vyta

Vyta is a market leading and trusted IT Asset Disposition and IT Asset Lifecycle Management company. We partner with organisations globally including some of the top global legal, professional services and financial firms to help them deliver on compliance regulations, ESG goals and revenue targets.

Global Capabilities

We coordinate impactful ITAD programmes worldwide, both directly from our secure facilities in Chelmsford, Dublin, Belfast and Frankfurt, and globally through our extensively audited network of service providers.

Vyta Values

Sustainability
shapes our decisions

Agility
drives our innovation

Integrity
guides our actions

Security
underpins everything
we do

The Vyta Difference

We are an agile, customer centric organisation.

Our mission is to make it easier for large organisations to deliver impact at every stage of their IT asset lifecycle.

Comprehensive

We deliver global ITAD programmes locally, using our in-house teams and a network of fully audited service providers.

Simplified

Your global ITAD programme is managed through a single, dedicated account manager.

Forward Thinking

We understand the technology landscape and where it's going, ensuring every asset you send to us is made data safe and responsibly processed.

Compliant

Working locally means we manage programmes in accordance with local laws and regulations, alongside the highest industry standards.

Transparent

We provide a complete chain of custody from the moment assets leave your site through to their final disposition.

Measurable

Our services include a suite of standardised global reporting as well as full carbon impact reporting.

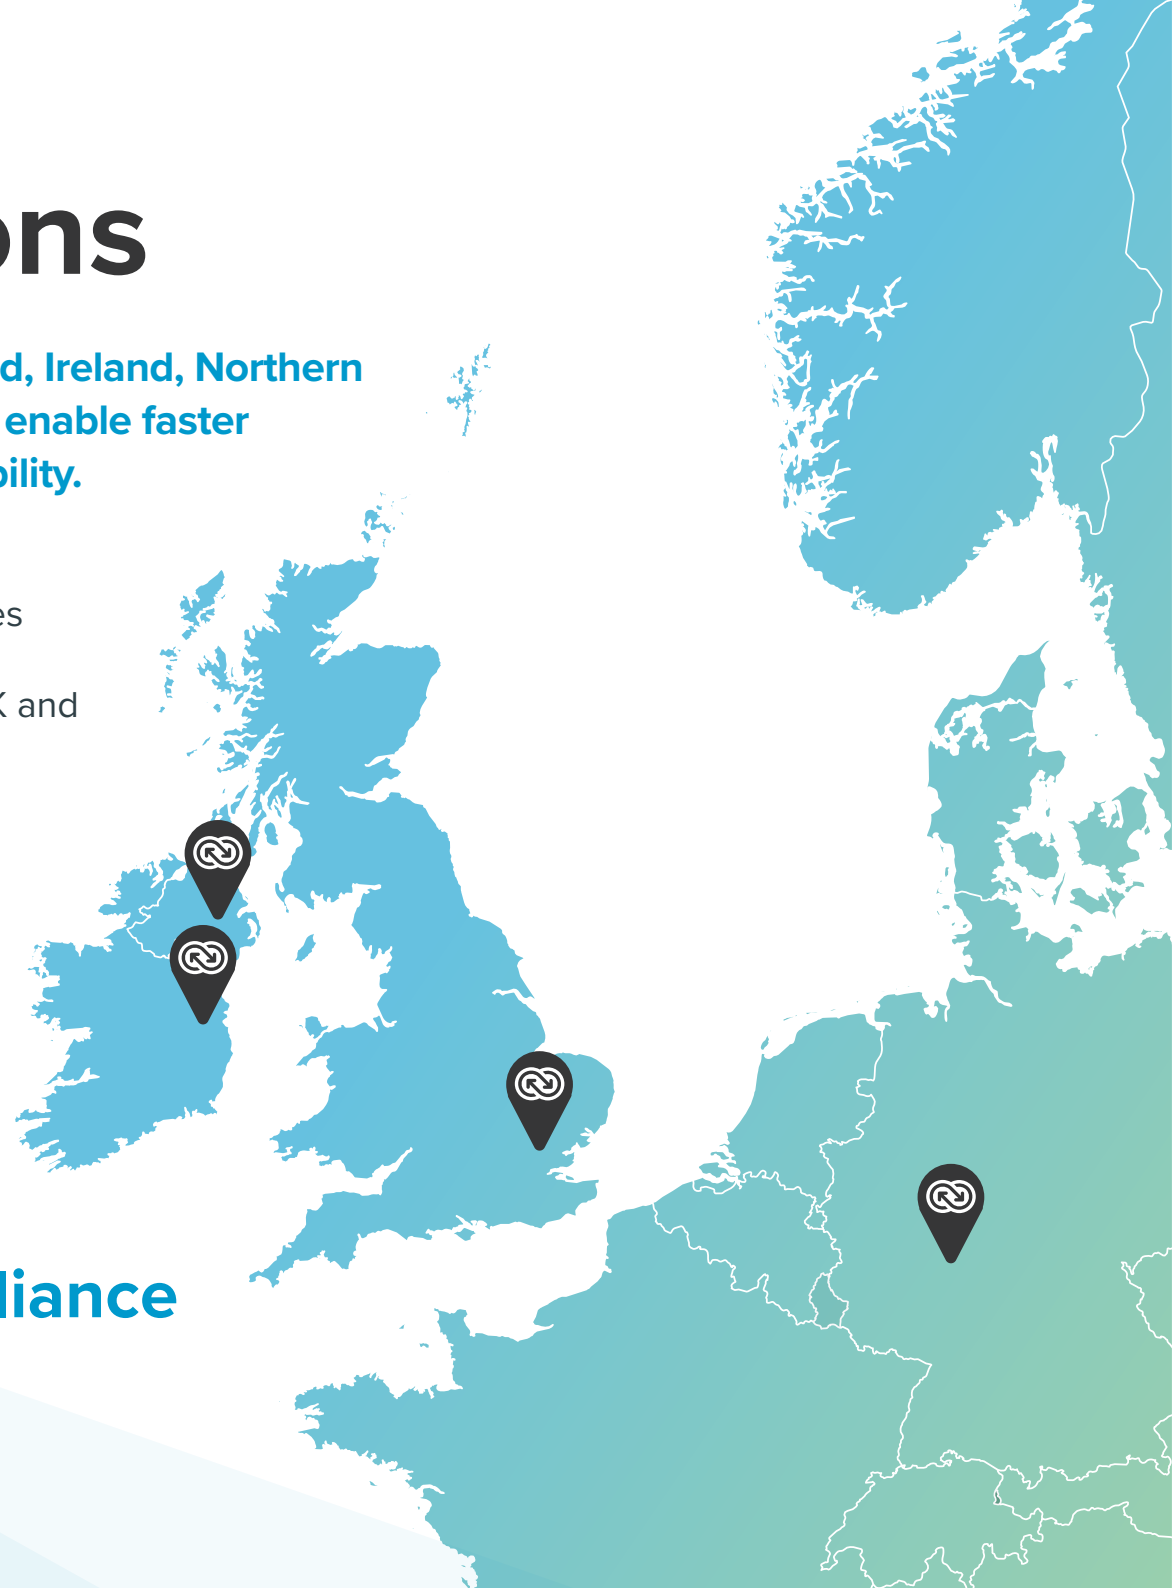

Strategic Locations

Vyta operates secure processing facilities in England, Ireland, Northern Ireland and Germany, each strategically selected to enable faster delivery, stronger compliance and greater sustainability.

Belfast simplifies UK–EU logistics, Frankfurt accelerates service across mainland Europe, while Dublin and Chelmsford ensure direct coverage throughout the UK and Ireland.

All facilities are fully staffed by Vyta teams, delivering consistent service quality, full chain of custody and trusted local expertise.

**Faster delivery, stronger compliance
and greater sustainability.**

“ ”

Since partnering with Vyta, we've benefited from a **cost-effective, centrally managed ITAD programme** that meets the needs of every Aon location. Their sustainability ethos supports our global targets, helping us make a measurable impact.

KATE CRISP, REGIONAL ASSET MANAGER EMEA, AON

Generating Maximum Revenue Return from Resale

Our secure, compliant resale service prepares and sells equipment into global markets, returning revenue directly to you. With over 15,000 assets sold monthly, our expert in-house team ensures maximum return through the most suitable resale channels, even when processing is carried out across our partner network.

Our refurbishment process enhances reuse potential, extending the life of equipment and supporting your sustainability goals. Detailed reporting tracks revenue generated and environmental impact, helping you shape smarter, more cost-effective IT procurement strategies.

Get more from your retired IT with a clear, efficient and hassle-free resale solution.

State-of-the-art in-house refurbishment centre

Multiple established B2B and B2C channels

Experienced global sales team

Carbon Impact Reporting

Vyta's carbon impact reporting provides clear insight into the environmental benefits of your IT asset disposition programme.

Each report shows the volume and type of equipment processed, the proportion reused or recycled, and the total CO₂ emissions avoided through responsible reuse.

Reports can be tailored by date range, collection location or asset category, giving you the flexibility to track performance across departments, projects or regions.

This data supports internal ESG reporting and helps demonstrate measurable progress against your sustainability goals.

DiskShred
A Vyta Service

Onsite Shredding Service

Vyta's onsite shredding service, DiskShred, is the UK and Europe's most reliable, cost-effective solution for businesses and organisations that require the complete destruction of data-bearing devices.

Vyta has a fleet of state-of-the-art GPS-tracked shredding trucks operating across the UK and EU, able to shred large volumes of hard drives, SSDs, USBs, CDs and more down to debris as small as 6mm. Once devices are shredded, we responsibly recycle the debris, recovering valuable materials and minimising environmental impact.

Our Onsite Shredding Process

*You can witness the destruction first-hand in our special guest viewing area

IT Asset Lifecycle Management

Vyta offers a range of additional services that support organisations throughout their entire device lifecycle and will:

- ✓ **Reduce** timelines for projects and deployments
- ✓ **Assist** IT Teams
- ✓ **Enhance** current skill sets
- ✓ **Fill** resource gaps within organisations

IT Refurbishment & Redeployment

Extend the lifespan of IT assets through comprehensive refurbishment, delivering like-new equipment.

IT Decommissioning

Our experienced engineers will audit, remove, and track your IT assets, ensuring a fully documented process.

IT Storage & Deployment

Easily remove, store and redeploy IT equipment from our secure warehouses to wherever they are needed.

Image Creation / Configuration

Preload customised content onto devices prior to delivery, ensuring they are ready for immediate use.

Onsite Field Support

Leverage our skilled engineers for onsite assistance, from installation to networking and configuration.

Joiners, Movers or Leavers

We manage the collection, refurbishment, data security and redeployment of employee equipment, wherever the location.

“ ”

Linklaters have partnered with Vyta for many years, consistently benefiting from their excellent ITAD services.

The team delivers on security, ensures compliance, and brings valuable certification, expertise and efficiency to our operations.

Their strategic insight and reliable support make them a key partner in our IT operations.

UK IT MANAGER, LINKLATERS LLP

Compliance

Vyta sets the standard in compliance.

ADISA Standard 8.0

Vyta is certified to ADISA Standard 8.0. This verifies that we have the necessary security infrastructure protocols in place to handle and process the most sensitive data. ADISA is a certification body in the data protection and information security sector, enabling companies to provide customer assurance by verifying regulatory compliance through audits and certification.

R2v3

R2v3 is the latest iteration of the R2 standard developed by Sustainable Electronics Recycling International (SERI). It is a globally recognised certification that sets clear rules for safely managing e-waste. It ensures electronics are recycled and reused in ways that protects not only your data, but also our planet.

Additional Certifications

National Protective
Security Authority

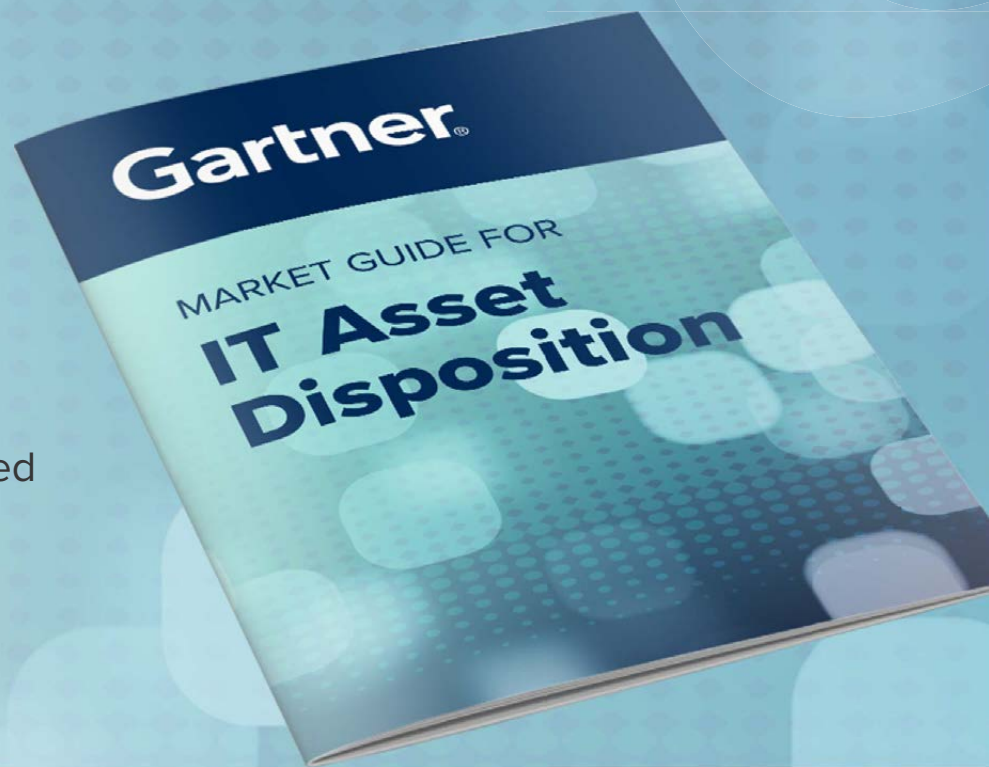

King's Award for Enterprise for Sustainable Development

Vyta has been recognised for its excellence in sustainability as one of only two Northern Ireland businesses – and one of 29 across the UK – to achieve the prestigious King's Award for Sustainable Development in 2024.

The only EMEA ITAD featured in Gartner's Market Guide for IT Asset Disposition 2024

Vyta is certified to the highest level and globally acknowledged for excellence in data security, compliance, and sustainability.

Case Studies

Discover how Vyta delivers secure, sustainable IT asset disposition for top global organisations across the financial, legal and professional services sectors.

Aon

Global ITAD programme supporting Aon's sustainability and compliance goals across multiple countries.

Global Law Firm

Secure data wiping and donation of devices from a major London office closure.

Global Bank

Erasure and disposal of over 7,000 hard drives containing sensitive financial data.
